Subject: USACE 408 Comments on SDEIS for BDCP
RDEIR SDEIS Comments USACE.doc

Ann and Theresa,

Attached are my comments. This does NOT include review of the recently provided USACE appendices. As we discussed at a previous cooperating agencies meeting, these comments are considered a “dry run” for public draft comments. I realize that DWR is working on language in hopes that our strong comments related to hydraulics can be tempered. We can discuss further tomorrow if needed. Please note that because of the short review time, I have not completed a comprehensive review nor provided comprehensive comments at this time.

Thanks,

Meegan
